THE WELLNESS COLLECTION

Maison APAISER

Our mission since the inception of apaiser, has been to create spaces of luxury and indulgence, in one of the most environmentally sensitive materials, apaiserMARBLE®. Focused on crafting beautiful bathware, to create luxurious, unforgettable bathing experiences, we believe that a tranquil bathing sanctuary elevates our cleansing rituals. Perhaps the most sumptuous and sensory bathing experience of all, comes from indulgent moments spent immersed in a spa or wellness retreat, where scent, light, sound, materiality and touch are artfully layered, to subtly coerce the mind and body to relax.

Our collections and bath couture designs, handcrafted in our tactile and sensual apaiserMARBLE, are featured in some of the most magnificent spas and wellness retreats, all over the world.

Each piece is crafted by hand, from our sustainable apaiserMARBLE, a luxurious blend of repurposed marble and minerals, sourced from the rich soils of the Australian Barossa Region. Composed of up to 90% reclaimed marble, combined with high quality resins, our material merges the luxuriant and natural feel of marble with performance. Shaped by hand with absolute perfection by our master craftsmen, apaiser bathware exemplifies the best of nature, technology, and meticulous artisan craftsmanship.

apaiser offers designers the ability to tailor-make bathware, perfectly suited to their client's needs. Our experienced in-house designers have worked closely with designers and clients in developing innovative solutions which integrate the aesthetics and quality of our luxury bathware and the specialised requirements of the spa and wellness industry.

DESIGN WITH CONFIDENCE

Work with our experienced in-house design team to create bespoke pieces exclusively for your project. Bath Couture (custom design) and Made to Measure creations are our specialty.

MIND THE ENVIRONMENT

Each apaiser piece is handcrafted from our sustainable material, apaiserMARBLE® - a blend of repurposed marble and resins. Sustainably sourced raw ingredients, and environmentally sensitive production, have been our focus since the inception of apaiser. We continue to strive to further reduce our impact on the environment.

QUALITY AND PERFORMANCE

Our signature material is beautiful in appearance and touch, with excellent heat retention. It is durable and easy to maintain, clean, and repair. apaiserMARBLE is non-porous, stain, mould and bacteria resistant and lighter than natural stone. We craft bathware of the highest quality which is durable and long lasting. Our pieces are UPC certified (CSA B45.5-17/IAPMO Z124-2017) under IAPMO standards, and LEED compliant.

SAFE AND NATURAL

Our bathware contains minimal man-made ingredients, is non-toxic and free from silica, ATH and VOC's so our clients can enjoy a natural, sustainable and guilt-free soak. Both the material and hand-finishing process combine to create pieces which are naturally slip resistant. Additional safety features, such as integrated hand grabs can be incorporated for further peace of mind.

TRUSTED AND GLOBAL

We are a proud Australian brand, who has designed and crafted bathware for beautiful hotels, resorts and private residences all over the world for more than 20 years. Our team is stationed across the globe, working closely with designers everywhere. We can supply to any country, both directly or with the help of one of our local partners.
