The Concept

From sketch to reality

LOUIS COLLECTION

Named after Louis XIV David drew inspiration from the grandeur of the court of the "Sun King", where bathrooms were designed as spaces of opulence and theatre. The ornate bathrooms of Versailles remain iconic, with their classical shapes and decorative flourishes.

Juxtaposed with a more contemporary influence, these elements inspired the unique forms of the Louis Collection, brought to life in *apaierMarble®* with sculptural pieces that feel modern yet steeped in history.

LOUIS BATH

Defined by its solid form and delicate flourishes, the Louis Bath is a celebration of refined opulence. Its strong profile and bold silhouette are soothed by gentle curves, revealing a versatile and elegant piece.

LOUIS BASIN

The Louis basin pairs beautifully with the Louis bath to create an effortless bathing sanctuary.

Echoing the design language of the *apaiserMarble®* bath, this classic shape is reimagined with a soft, rolled edge and exquisite base detail. A sculptural and adaptable piece, the basin is stunning on its own or as a complement to other baths from our collections.

LOUIS FREESTANDING BASIN

A modern interpretation of pedestal basins of the past, the Louis freestanding basin was imagined as a work of art.

Perfect as a striking centrepiece in a small bathroom or powder room, its stately form, and refined elegance combine to elevate the simple ritual of cleansing.
